Message from the Chief Operating Officer (COO)

Majumder Group is a 3rd generation family-run, export-oriented business operating for over 57 years. My late grandfather laid the business foundations in 1964 with Jute and Timber being the primary businesses. The rise of plastic industries caused a sharp decline in the demand for Jute products. In early 1980s, the 2nd generation family, my father and his brothers, took early initiatives for urgent diversification and ventured into the RMG sector with a shirt factory. From early 2000 and onward, the 3rd generation family, my cousin and myself, are in charge of operations and further expansions.

We have a very “hands on” approach in managing our family business. Over the years, we have formed both intricate and long-standing partnerships with our employees, buyers, suppliers and other stakeholders. We value this very much and it is at the very core of our business.

Our utmost priority has always been client support and satisfaction, workers safety and rights, ethical and transparent operations and to grow our business sustainably.

The past 10 years of unparalleled challenges have really tested us as a business. These trials and tribulations have taught us to stand strong, be agile and to adapt to new ways for survival.

We have set our goal for the next 10 years, and that is to become a company with one of the best practices in the country. This vision we hope to achieve based on 4Ps (Pillars). Practices | People | Product | Planet.

Over the next few years, we plan to significantly expand both in RMG and non RMG sectors in Bangladesh. To achieve this, we are continuously investing in our people and in new technologies.

Businesses are becoming increasingly challenging to manage. Speedy technological progress, combined with unpredictable market volatilities, make it very tough to map future plans & strategies. Our strong partnerships, financial strength and market reputation will be key factors to our survival and growth during such times.

Bangladesh as a country has immense opportunities and potentials. After RMG now many new industries are flourishing such as, IT, Pharmaceuticals, Ceramics, Electronics, Automobiles and others. As a nation, we take pride in our products. We have truly taken the “Made in Bangladesh” label to the world stage. This is the story that we are grateful to be a part of and are fully committed to continue playing our role in the years ahead.

Your sincerely
Syed M Sajjad

At A Glance

Company Name - Majumder Garments Ltd.

Incorporation - 1984

Annual Turnover - US\$ 50 Million

Annual Production Capacity - 12 Million Pcs

Compliance – ACCORD, BSCI, SEDEX, OEKO-TEX, HIGG, OCS, GOTS, BCI, GCL, FAMA DISNEY

Product Types - Shirts | Bottoms | Jersey | Fleece | Active | Sleep | Lounge | Work Wear

Production Line - 30

Lead Time : 90 - 120 days

Workforce - 3500

Factory Area – 230 k Square Feet

Accreditations

We have been recognized and accredited by international Audit Organizations. Adherence to high standards of compliance,, has been key to our sustained growth.
